

Additional Information for Electronic Banking Services:

Electronic Banking IDs are issued by user, not account. Each individual user should have a separate ID to access their accounts.

Your Electronic Banking access and/or Bill Payment access will become inactive if it is not used for 90 days or more. You can reactivate your Electronic Banking access by contacting Customer Service at 770-567-7211, Monday through Sunday, 7am until 11pm.

Electronic Statements replace paper statements. If you choose to receive your statement electronically, you will not receive a paper statement via postal mail. For joint accounts, any of the account owners may request that statements be changed to Electronic Statements. If your account is a business account with multiple officers/signers, please agree with one another that the electronic option is preferred.

The default settings for Text Alerts are as follows:

1. A balance alert will be sent Monday-Friday at 12:00pm, EST.
2. A transaction alert will be sent for any debit or credit card transaction made for greater than \$75.00.
3. If you review the card alert and determine that the transaction was not authorized by you or another cardholder on the account, contact Customer Service immediately at 770-567-7211, Monday through Sunday, 7am until 11pm.

If you would like to adjust these default settings, please contact Customer Service to request your change.

The limits below apply to Mobile Remote Deposit Services.

Max Amount Per Deposit	\$2,500
Max Items Per Deposit	1
Max Deposit Per Day	\$2,500
Max Items Per Day	5
Rolling 30 Day Limit	\$10,000

Exceptions to these limits may be granted based on account history. You may request an exception by contacting Customer Service at 770-567-7211, Monday through Sunday, 7am until 11pm.

Please refer to United Bank's [Electronic Banking Agreement](#) for additional terms.
